

THE STEERING OIL TUBE AND WIRE HARNESS ARE ARRANGED INDEPENDENTLY

PRODUCT FEATURE

This new series forklift trucks that made with the latest technical design provide you excellent operating performance. HELI forklift trucks high standard performance, comfortable driving experience and the simple and safe operation will make your work handier.

● Environmental Friendly

- The emission meets EC and EPA new regulation.
- High efficiency hydraulic system to lower the fuel consumption.
- Using environmental friendly material.
- Damping device on the mast to reduce impact and vibration.
- Sound insulating and absorbing device are used to reduce the noise.

● Ergonomics design

- Using power braking system to reduce footplate strength.
- Control lever right located to effectively reduce drivers arm tiredness.
- Dual combined switch lever as a car to enable easy operating.
- Wide mast with good visibility.
- Wide space for boarding and driving , increasing leg space.
- Engine automatic monitor control, when the engine oil pressure is too low or water temperature is too high, the engine will be automatically shut off.

● Safety performance

- Enclose cabin is made of assembling steel plate, high strength overhead is designed to ensure the safety.
- Parking brake with safety protection device, when parking brake is working, the forklift will not move even the direction lever is turned.
- Safety device in mast hydraulic system prevents material falling down in case of hose broken.
- High pressure hose is designed far away from the driver.
- Safety wire harness, using waterproof plug.

THE MAIN PARAMETER

Model	unit	CPCD10	CPCD15	CPCD18	CPQ(Y)D10	CPQ(Y)D15	CPQ(Y)D18
Power Unit	Diesel				Gasoline/LPG		
Rated Capacity	kg	1000	1500	1750	1000	1500	1750
Load Center	mm	500					
Standard Lift Height	mm	3000					
Overall length(without forks)	mm	2166	2230	2273	2166	2230	2273
Overall width	mm	1075		1090	1075		1090
Overall height(overhead guard)	mm	2140
